

Wyoming Air National Guard

Prioritized Federal Project List

All located in Cheyenne

Project Description	2009	2010
<u>Ramp Expansion</u> - Expansion of Aircraft Parking area to position for additional aircraft beyond the current 12 C-130's. This expansion is located on land leased in 2006 that is still in the process of being Federally recognized to allow for construction projects. As a result we do not currently have a	\$15,000,000	
<u>Regional Operations and Security Center (ROSC)</u> – Moving ROSC (a regional computer network center) to new building addition to allow for ANG Headquarters building renovation (current location). Project is a must, but information obtained indicates FY 2010 funding at best. Has not been designed yet.		\$2,430,000
<u>Building 16 (Air Guard Headquarters) Renovation</u> - Renovation of building is in the 15% design phase. This project has been pushed out several times in Federal funding cycles although it remains a critical need.		\$25,000,000
<u>Building 25 (Supply Building) Repair</u> – Required repairs to meet mission needs and law	\$3,930,000	
<u>Building 14 (Weapons Storage Building) Renovation/Repair</u> – funding. Project has not yet been designed. We have received design funds. Cost presented is	\$340,000	
<u>Fire Hydrants for Apron</u> – Essential to improve firefighting for existing aircraft parking area. Project is at 35% design.	\$500,000	
<u>Construct Security Lighting</u> – For aircraft parking area	\$200,000	
<u>Repair Taxiway in front of Firehouse (Building 35)</u> – Project is already designed but awaiting funding to construct.	\$190,000	
<u>Total</u>	\$20,160,000	\$ 27,430,000
